

Dan and Atif speak at the Blockchain Summit

We are proud to report that Dan Andersson and Atif Kamran were invited to speak at the **Chamber of Digital Commerce: "DC Blockchain Summit"** at Georgetown University, McDonough School of Business in Washington DC, USA on 3rd March 2016.

There were over 400 delegates at the event keen to hear them speak on **'Entrepreneurship and the blockchain'**. They spoke about what LEO has done, and continues to do, to help global entrepreneurs, including the creation of LEOcoin and the role that plays in developing their businesses.

Speakers included senior representatives from Nasdaq, IBM, Microsoft and Deloitte.

Dan and Atif also met with US congressmen and other politicians to discuss the next phase of LEO's global growth plan and specific plans for expanding further into the US market.
